Greetings to you!

On behalf of the Organizing Committee, it is our privilege and pleasure to cordially invite you to participate in the International Conference on "Bilingualism and Artificial Intelligence: Transforming Language Learning, Teaching and Research" on 17th & 18th December 2026 to be held in Michael Job Memorial College of Education for Women, Coimbatore, Tamil Nadu

About Michael Job Memorial College of Education for Women

Established in 2004-2005, Michael Job Memorial College of Education for Women (MJCOE) is an institution committed to excellence in teacher education, research and innovation. Approved by NCTE, affiliated with Tamil Nadu Teachers Education University (TNTEU) and accredited by NAAC with a 'B' Grade, the institution offers B.Ed., M.Ed. and Ph.D. programmes in Education. Aligned with its vision, "Empowering the Girl Children," MJCOE promotes inclusive, technology-integrated and research-informed education. The institution encourages critical inquiry, pedagogical innovation and professional development among educators and scholars. The MJC Centre for Research, affiliated with TNTEU, fosters scholarly inquiry, interdisciplinary collaboration and knowledge dissemination. It provides a platform for faculty members and research scholars to engage in educational research, emerging technologies and evidence-based practices addressing contemporary challenges. Through academic excellence and research engagement, MJCOE strives to empower women educators and contribute to the advancement of educational knowledge and practice.

About the Conference

Bilingualism has become increasingly significant in a multilingual and technologically interconnected world. The rapid development of Artificial Intelligence (AI) is transforming the ways languages are learned, taught, assessed, translated, documented and researched. AI-powered tools, including intelligent tutoring systems, machine translation, conversational agents, speech technologies and adaptive learning platforms, offer new opportunities for personalised and inclusive bilingual education. At the same time, these technologies raise important questions concerning linguistic diversity, cultural identity, ethics, privacy, algorithmic bias and equitable access. This international conference explores the intersection of bilingualism and AI, bringing together researchers, educators, linguists, technologists and policymakers to examine emerging practices and challenges. It seeks to promote interdisciplinary dialogue on how AI can support effective bilingual language learning, innovative teaching methodologies and transformative language research while preserving linguistic and cultural diversity. The conference aims to envision responsible, inclusive and human-centred approaches to AI-enabled bilingual education.

Mode of Conference

The Conference is organized in HYBRID MODE. The participants can participate through Offline or Online. The Schedule and all other instructions will be sent only through WhatsApp. So, joining the WhatsApp Group is mandatory for all Online registered participants.
